

2021 School Garden Calendar

February

Get Organized

- Personalize your free seed package for spring (limited quantities). Starting Feb. 9, we'll have cool season vegetable seeds and varieties of flowers seeds for spring planting. See info in the box to the side and email [us](#) to schedule a pick-up time.
- We are updating our [database](#) of local youth and school garden programs. If your school/organization isn't listed or needs to be updated send us an [email](#)!

Free Seeds for Spring

Vegetable and flower seeds available to regional school and youth gardens only

*Appointment
required*

*Email [us](#) to schedule
a pick-up time starting
Feb. 9th*

Garden Tasks

- Start getting ready for spring planting by cleaning up anything you didn't get to in the garden at the end of the fall. Turn and sift your compost.
- Test hoses and watering cans for leaks, replace tools as needed so you're ready for spring.

Lessons & Curriculum

- Create a map of the garden. This should include the layout of the beds and what you plan to plant. It's a great way to practice creating models with scale and cardinal directions.
- Grow a microgreen salad in your window. More info on microgreens can be found [here](#).
